UPCYCLED DENIM

FROM NATURE TO EVERYDAY LIVING

At ilham®, we believe nature provides the most valuable resources—**pure, renewable** and **full of potential**.

We explore **natural, renewable, reclaimed and recycled materials** such as jute, seagrass, water hyacinth, banana fiber, areca leaf, paper and upcycled denim, and transform them through skilled craftsmanship into functional lifestyle products.

Every piece reflects our commitment to **thoughtful design, responsible choices** and creating a **positive impact** on people and the planet.

OUR MATERIAL UNIVERSE

*Inspired by Nature.
Crafted in Bangladesh.*

Nature gives us materials. We transform them into meaningful, functional products for everyday living.

JUTE

Naturally strong, versatile and biodegradable. From threads to beautiful handcrafted creations.

SEAGRASS

Sustainably sourced from nature. Woven by hand into durable and stylish lifestyle products.

WATER HYACINTH

An abundant aquatic plant, transformed into eco-friendly products through skilled craftsmanship.

BANANA FIBER

Upcycled from agricultural waste, creating new possibilities for sustainable living.

ARECA LEAF

Naturally fallen areca leaves, shaped into elegant and safe tableware and serveware.

PAPER

Recycled and responsibly made paper products that reduce waste and add value.

RECYCLED DENIM

Giving pre-loved denim a second life through creative design and craftsmanship.

COTTON & OTHER THREADS

Soft, natural and versatile. Perfect for crochet, macramé and a wide range of handcrafted items.

Natural. Renewable. Reclaimed. Recycled.
Thoughtful materials for a better tomorrow.

JUTE

BANGLADESH'S NATURAL HERITAGE

Jute is one of Bangladesh's most valuable **natural fibers** and a part of our culture and **heritage**.

Bangladesh is the world's leading producer of jute, and we take pride in transforming this **golden fiber** into beautiful, functional and **sustainable** products.

From **raw jute** to **refined jute thread**, ilham blends this timeless fiber with skilled craftsmanship to create products that are **good for people and the planet**.

NATURAL

A 100% plant-based fiber from nature.

STRONG & DURABLE

Known for its strength, longevity and versatility.

BIODEGRADABLE

Completely biodegradable and environmentally responsible.

SUSTAINABLE LIVELIHOOD

Supporting farmers, communities and skilled artisans.

*Inspired by Nature.
Crafted in Bangladesh.*

GROWN WITH CARE
Nurtured by nature in our fertile lands.

HARVESTED
Sustainably harvested at the right time.

RETED & PROCESSED
Traditional retting and processing creates strong, natural fibers.

SPUN INTO THREAD
Transformed into raw and polished jute thread with care.

CRAFTED INTO PRODUCTS
Skilled hands turn jute into beautiful products for everyday living.

“

Jute is more than a fiber,
it is our heritage, our pride
and our promise for
a better tomorrow.

— — — — — ”

JUTE THREAD

RAW & POLISHED

From the heart of the jute plant to skilled hands, we offer jute thread in two natural forms—**raw** and **polished**—each with its own unique character and charm.

*Inspired by Nature.
Crafted in Bangladesh.*

RAW JUTE THREAD

Natural. Textured. Authentic.

Raw jute thread retains the natural texture and earthy feel of the fiber. It is strong, breathable and perfect for creating rustic and organic designs.

BANANA FIBER

From Agricultural Waste to New Possibilities.

We transform **banana pseudostems**—an abundant agricultural by-product—into **strong, versatile and sustainable materials** that **reduce waste, create value** and support a **greener future**.

*Inspired by Nature.
Crafted in Bangladesh.*

“Turning what is left behind into what the world can use.”

After harvest, the pseudostem is naturally leftover and often discarded.

We extract, clean and dry the fibers using eco-friendly methods.

Fibers are processed into natural sheets—strong, flexible and biodegradable.

Crafted into sustainable products for everyday living and responsible brands.

Reduces agricultural waste & environmental impact

ilham GreenDine

Pure. Natural. Responsible.

THE STORY OF ARECA LEAF

1. NATURALLY FALLEN

Areca leaves naturally fall from the tree. We collect them responsibly.

2. CLEANED

Leaves are cleaned thoroughly with pure water to ensure hygiene.

3. HEAT PRESSED

Leaves are heat pressed using high temperature & pressure to form durable shapes.

4. FINISHED PRODUCT

Strong, elegant & ready to serve—100% natural, chemical-free and safe for food.

5. BACK TO NATURE

100% biodegradable and compostable. Returns to nature without harm.

From nature, through care, back to nature.

MATERIALS WITH PURPOSE

Better Materials. Responsible Choices.

At ilham, we choose materials for their lower impact and lasting value. Our collections include a variety of natural, upcycled and responsibly sourced fibres—each with its own unique properties and benefits.

We make claims that are material-specific and transparent because real sustainability starts with honesty.

NATURAL

Derived from nature with minimal processing.

RENEWABLE

Sourced from fast-growing or naturally replenishing resources.

RECLAIMED

Recovered materials given a second life.

RECYCLED

Materials reprocessed to reduce waste and conserve resources.

HANDCRAFTED

Made by skilled artisans using time-honored techniques.

RESPONSIBLE

Produced with care for people, communities and the planet.

“Sustainability is not a single claim.
It's a series of better choices—
made with integrity, for a better tomorrow.”

MATERIAL-SPECIFIC SUSTAINABILITY AT ILHAM

	JUTE	BANANA FIBER	ARECA LEAF	COTTON (100%)	COTTON BLENDS	PAPER (PAPER PEN)	UPCYCLED DENIM	CROCHET & MACRAMÉ	OTHER THREADS
WHAT IT IS	 Natural bast fiber from the jute plant.	 Fiber extracted from banana pseudostem.	 Fallen areca palm leaves collected, cleaned and pressed.	 Natural fiber grown from cotton plants.	 Cotton blended with other natural or recycled fibers.	 Made from waste paper and natural binders.	 Pre-loved denim collected and reimaged.	 Handcrafted using natural cotton cords and yarns.	 Includes jute yarn, hemp, seagrass and other natural threads.
RENEWABILITY	Highly renewable (4–6 months)	Renewable (harvested annually)	Renewable (fallen leaves collected)	Renewable (annual crop)	Partially renewable depending on blend	Renewable (paper from recycled sources)	Extends life cycle of existing material	Renewable (when made with natural fibers)	Renewable (natural fiber-based)
ENVIRONMENTAL BENEFITS	Low water needs, enriches soil, carbon absorbing.	Utilizes agri-waste, reduces burning and landfill waste.	No trees cut, compostable, reduces plastic use.	Biodegradable, comfortable, low impact natural fiber.	Balanced performance and resource use.	Reduces paper waste, low energy in production.	Reduces textile waste, saves water & energy.	Durable, reusable, crafted slowly with care.	Natural, biodegradable (in most cases).
BIODEGRADABILITY / END OF LIFE*	Biodegradable (100%)	Biodegradable (100%)	Compostable (100%)	Biodegradable (100%)	Depends on blend composition	Biodegradable (> 90%)	Not biodegradable, but extends material life.	Biodegradable (100% if natural fiber)	Depends on fiber type
OUR APPROACH	Responsibly sourced from local farmers in Bangladesh.	Upcycled from agricultural waste. Zero waste intent.	Ethically collected. Supports rural livelihoods.	Sourced responsibly. Quality with care.	Chosen for performance and lower impact.	Made in Bangladesh. Minimal plastic components.	Collect. Rework. Reimagine. Repeat.	Handmade by skilled artisans.	Selected for function, durability and sustainability.

*Under appropriate conditions.

“Different materials.
Different properties.
One commitment—
a better future.”

OUR COMMITMENT

Transparent about what we use and why.

Honest in our claims. Material-specific. Evidence-based.

Supporting artisans and communities.

Continuously improving our processes and partnerships.

Designing products that are useful, durable and meaningful.

Better materials.
Lower impact.

Better livelihoods.
Stronger communities.

Better planet.
Better tomorrow.

At ilham, sustainability is not a trend.
It is how we think, create and grow.

Inspired by Nature. Crafted in Bangladesh.

ABOUT ILHAM

Inspired by Nature. Crafted in Bangladesh.

ilham is a purpose-driven brand creating sustainable, beautiful and functional products from natural and upcycled materials. We blend tradition with innovation to design products that are good for people and better for the planet.

Climate is changing
why aren't we?

NATURAL BY CHOICE

We use natural, renewable and responsibly sourced materials.

HANDCRAFTED WITH CARE

Made by skilled artisans using time-honoured techniques.

DESIGNED TO IMPACT

Thoughtful design that combines functionality, aesthetics and purpose.

EMPOWERING COMMUNITIES

We work with local artisans and rural communities, preserving skills and creating livelihoods.

SUSTAINABLE FUTURE

Every product supports a more responsible and sustainable world.

OUR STORY

Founded in 2020, ilham began with a simple belief—business can be a force for good.

What started as a vision to create eco-friendly alternatives has grown into a brand that celebrates nature, supports artisans and delivers products that make a difference.

From jute and banana fiber to areca leaf, paper and upcycled denim, we continue to explore better materials and better ways to create.

Inspired by Nature.
Crafted in Bangladesh.

“Small choices.
Thoughtful design.
Lasting impact.”

OUR MISSION

To create sustainable products from natural and upcycled materials, empower artisans, and promote responsible living.

OUR VISION

A world where nature and people thrive together through conscious design, ethical production and lasting partnerships.

OUR JOURNEY SO FAR

2020

ilham was born.

2020

First export to Japan & Canada.

2021–2023
